

Provincial award for Ennis company

AN Ennis company has put its best foot forward to be selected as a provincial winner in the Munster finals of the Ulster Bank Business Achievers Award.

TOG Orthotics International Ltd was named the winner of the Business Going International Award. The company provides rehabilitative foot orthotics to help prevent lower back, hip, knee and foot pain.

The Ennis company now qualifies to compete for the overall national title at an awards ceremony, which takes place in Dublin in February.

A total of 363 businesses

north and south entered the 2008 awards, which aim to recognise and reward business success, regardless of business offering, service, or location.

Seven leading businesses in Munster were selected as provincial winners. The winning business in each category was selected from a shortlist of three companies.

Companies were judged on a variety of merits, including sales performance, market share growth, company milestones, innovative new products or services and successful achievements by key personnel.
